

NEUROLYRICAL CAFE! OPEN MIC NIGHT

My Autism

Autism comes in many forms
A coat hanging differently on each person
For some a blazer and others a fur coat
For me, autism is fire
It burns inside me
Sometimes warm and sometimes burning hot
With the power to sustain life and destroy it
To purify and light the path
My medical condition is called inflammation
My immune system is inflamed
We are working to extinguish the fire inside me
The burning should go but the energy will remain
To power my mission and light my path
For those who wear a heavy coat
To be, instead, warmed by the fire

Elizabeth Bonker

"That was fiery"... -Vikram

"I got goosebumps." - Ren

"Incredible." - Imane
